

YRG Group

Environmental Policy

YRG group recognises the importance of the Environment we live in, and therefore are committed to keeping up to date and comply with all relevant legislation. While continuing to provide the highest level of service and quality of products to our customer's and specification.

All members of staff are encouraged to help improve and reduce our impact on the Environment. It is our senior management team who periodically review and set out key objectives. It is also addressed across all areas our commitment to prevention of pollution.

Within our policy, we work together with our suppliers and contractors strengthening our commitment to continual improvement. These are people who agree with our Key objectives and interests in minimizing our impact on the environment.

Specific key areas which we focus on are as follows,

- Recycling of cardboard and paper
- Recycling of Solvent onsite
- Minimisation of energy usage and waste
- Correct disposal of non-biodegradable waste
- Alternative solvents where possible
